

GSY-3015B

Two spindles CNC Machining
Center For Countertop

Cutting Function Display

Machine Features

- 1.With double spindle, the two spindles can work alternately by pneumatic. Convenient and high efficiency.
- 2.Do cutting, drilling holes, edge profiling and polishing, finish one countertop at one time, high efficiency.
- 3.Without tool magazine, changing tools manually for the ATC spindle, fast and economy.
- 4.Humanized control system, easy to operate.
- 5.Whole steel structure machine body ensuring high stability.

Applicable Industry & Material

Applicable industries: Widely used in CNC processing and production of basins, cabinet countertops, bathroom countertops, bar counters, kitchen countertops, washstands, marble walls, dining tables, coffee tables, window sills, door pockets, etc.

Applicable materials: widely used in granite, quartz stone, artificial stone, marble and other stone.

| Technical Parameters | |
|-------------------------|---|
| Model | GSY-3015B |
| X/Y/Z Axis working size | 3000*1500*430mm |
| Working table | Aluminum profile with T-slot and water tank |
| X/Y/Z Axis transmission | X/Y Axis helical Gear and rack, Z Axis Ball screw |
| spindle power | ATC spindle 7.5KW + Frequency conversion water-cooled spindle 5.5KW |
| Max spindle speed | 2700-24000rpm |
| Driver motor | servo |
| Control system | GANGER |
| Gross weight | 3500KGS |
